

**D A T****One****Broker TMS**

**A broker-focused TMS that grows revenue, not overhead costs. DAT Broker TMS is scalable, customizable, and keeps the entire freight journey in one place.**

## Do more with less

**Be more productive with less back-office investment and fewer filing cabinets.**

Combine your operations and accounting into a single system to avoid duplicate effort.

Enter loads, calculate miles, and analyze price and margins with integrated analytics.

Data exchange tools let you pass details back and forth with customers easily, with no need to re-type info from shippers.

Search your internal carrier database or post directly to your load board subscriptions.

Verify carriers in minutes and get real-time location updates with add-on tools.

## Everything you need in one place

**A brokerage-in-a-box with everything you need to compete inside. From dock to dock, the entire freight cycle starts and ends inside DAT Broker TMS.**

✓ Load posting

✓ Finding carriers

✓ Accounting

✓ Getting paid

## Reduce paperwork, increase revenue

**Focus on growing your business, not staying organized.**

### Organize your documents in no time

Store, label and retrieve any document digitally.

### Automated billing

Scan documents into DAT Broker TMS, and the system extracts the invoices with supporting docs for automatic printing or emailing.

**Call 800.728.7305, email [keypointsales@dat.com](mailto:keypointsales@dat.com) or contact your sales rep to learn more about Broker TMS and request a demo.**
